Re: contract 530161, task order 876

To whom it may concern:

I have had the pleasure of being the technical team chairperson for the department's 2013-2014 Geospatial Strategic Direction value analysis process study and working closely with the value analysis facilitator, Mr. Robert B. Stewart, President of Value Management Strategies, Inc. Mr. Stewart and his team at Value Management Strategies, Inc. have been very responsive to the needs of the team, and instrumental to the success of the Geospatial Strategic Direction (GSD).

Mr. Stewart's approachable facilitation style helped focus the multi-disciplinary GSD technical team on common interests and challenges, and fostered an inclusive environment where all opinions were heard and valued. He introduced a range of analysis tools and techniques to the team that led to clearly defined team decisions. Mr. Stewart was able to match his facilitation efforts to the constantly fluctuating needs of the team for optimal team performance over the course of the VA.

Mr. Stewart and his team at Value Management Strategies, Inc. exceeded my expectations and I would not hesitate to use them again in the future.

Sincerely,

James M. Appleton, PLS, CP, PMP
Office Chief
