Guys,

On behalf of Greg and myself thank you for completing all of the last minute requests and getting out the final report on-time. Greg completed the briefing of the study results to the Project Management Council this morning and all went well. We are receiving the necessary signatures that we were seeking.

Since this was the first study that you all have done for Memphis district it was very important that all of this come together in good fashion and it did!

I look forward to working with you guys in the near future, particularly on this project. Thanks again.

Mark Shirley, Value Engineering Officer
